McADAM ELEMENTARY SCHOOL

MONTH: MARCH 2025

Manners Excellence Safety

MARCH

Welcome to March! We hope everyone had a wonderful and restful March Break. We have an exciting month ahead, as we transition into spring and enjoy the warmer weather.

St. Patrick's Day is already around the corner and we will be seeing a lot of green around the school. It is hard to believe that we only have three months left of school after this one. Stay tuned for some Heart Healthy Schools Challenges in the months ahead.

Monthly School Assembly

For our February assembly, we celebrated the monthly perfect attendance winners, as well as the perfect attendance winners for the whole school year. We are down to five students who have perfect attendance for this year. This is an increase from 2 at the same point last year.....WAY TO GO! February's student awards were for being an AMAZING FRIEND. Each class presented one student with an award for being a ROCKSTAR friend. This month we are focusing on Cooperation. Students will receive lessons on getting along with others, having good sportsmanship, taking turns, etc.

Chase The Ace

The Ace of Hearts has continued to hide! The Jackpot is REALLY growing quickly, which means that MES is also getting more money raised. This will help us, as we look to improve our outdoor basketball area. If you are looking for tickets you can call the school or pick them up at one of the local businesses that has them for sale. (McAdam Home and Building, Cook's Store, The Gun Dealer gas station and McAdam Pharmacy). Currently, the Jackpot is estimated to be \$45 000 for March 14. The weekly prize if you don't pick the ace of hearts is about \$700-\$800.

Mathletics Mania

World's Math Day for Mathletics is on March 26. This year's theme, Maths for Everyone, celebrates what teachers already know: every student can shine at mathematics. Our school Math Program will be taking part in a Mathletics challenge. It starts March 10th and runs until March 28th. We will be competing against schools from all across Canada. The schools with the highest average points per student will win prizes for their school. We have a lot of students who work hard on this program but we will need an even bigger effort from everyone. Students will be given school time to complete math tasks but they can also log on to the Mathletics app (or website) at home. If you need the logon details reach out to your child's teacher and they will send along the details. In addition, March 14th is World Pi Day.

Heart Healthy Schools

We will be starting this in April and we will be doing challenges right up to the end of the school year. We will have 5 challenges this year:

- Explore Fruits and Vegetables
- Joyful Movement
- Discover Water
- Rest & Recharge
- Experience Clean Air

Keep a look out for the challenges in the monthly calendars that are coming up. These are fun and the students learn about ways to keep their hearts healthy.
